8th December 2022

KTU campus library amphitheater (2nd floor) (Studentų str. 48, Kaunas) Lithuania

DIGITAL TUTORS: FACING THE NEW GENERATION AND CHALLENGES
International conference for results dissemination

We invite everyone who is interested in **digital education, technology and the possibilities of evaluating and improving digital competences** to the international Erasmus+ project "DIGITAL TUTORS: FACING THE NEW GENERATION AND CHALLENGES" for results dissemination.

Processes in education were adjusted by the pandemic, which forced hundreds of thousands of educational institutions to reorganize the teaching process by moving it remotely, rethink the teaching scheme and strategies, and adapt to the suddenly changed situation.

Contributing to the development of the European Commission's DigComp and DigCompEdu digital competence assessment systems for teachers and general citizens, Digital Tutors project also includes the assesment the soft skills such as empathy, reflection, curiosity, imagination, resilience, which are also important in the educational process.

Project aims to assess and improve the competences and skills of educational workers so that they feel more confident in preparing and providing content for distance or blended learning.

Project partners from Lithuania, the Netherlands and Spain, as well as external experts working in this field, will share experience and best practices, developed products, training programe and other results of Digital Tutors.

REGISTRATION until 6th of December
https://bit.ly/DigitalTutors_conference

Certificates of qualification will be issued to the participants
